Flags and banners will be 3' x 5'. The Unit banner made according to the specifications as approved by the National Assembly on August 12, 1976, would be embroidered lettering and design. A set of colors consists of an American (U. S.) Flag and Auxiliary Unit/Department Banner, complete with fringe cord and tassels, 8' jointed wood poles, eagles, round metal stands and plastic dust covers. Aluminum poles may be used if desired, but would probably cost slightly more than wood poles.

As an alternate to the above, the Board of Trustees on February 2, 1978, approved the use of a Unit/Department banner made of nylon with appliqued lettering and emblem which would reduce the cost. The same accessories as listed above would be used with this set of colors.
