Our \$\$\$ collected each month goes to National projects. This facility would encourage our members who have talents to share those as well. If you sew, they would like you to share that with the kids, knit, woodworking, singing, any talent. You cannot put a price on these things and they would like volunteers to come in and show the kids that there are choices to be made.

I know there is much more going on out there. Please feel free to email me so you get some credit and can give ideas to other units.
