

Patriotic Citizen

When walking through your neighborhood, look at your neighbors' houses. If they are flying a flag, give them a Patriotic Citizen certificate and thank them for flying our National Flag. If they aren't home, put it in their door or mailbox. If the flag is torn or tattered, offer them a new flag. If they let you, help them put it up and say the Pledge of Allegiance.

You can also give Patriotic Citizen certificates to your favorite business. If they are also flying the POW/MIA Flag, recognize them for that also.

You can purchase certificates or make your own. There are templates in the WORD program. There are also free ones on Canva's website. There are also other websites you can use. With most sites, you just have to register to use them.

Make sure you sign the certificate and have the MCLA Auxiliary on it.
