

Welcome to SWAP!

SWAP means Sharing Wonderful Auxiliary Projects.

Everyone has ideas for projects and events. Everyone does it differently, with their own unique spin. I have traveled around the state, including the Upper Peninsula, and I am amazed at the great ideas that I had never seen before.

It works when a member has a great idea for a project, Program, event, parade float, membership recruitment, or promotion and decides to document and share that idea with others.

This program will give everyone a chance to show and explain their own ideas. They are meant to encourage and motivate. It will be challenging, fun, creative, and powerfully productive.

You will accomplish and generate new ideas. More importantly, you will make a difference, encourage enthusiasm, and spark interest.

When you submit your idea, include a photo. Then include all the step-by-step instructions or “how to”.

I am looking forward to seeing all your great ideas!

Please email all ideas: mclaresourcecenter@gmail.com
